LED Light Trip by Salon C. Stellar

30 min - \$140

The power of light! LED phototherapy is the application of controlled levels of red, blue and near infrared wavelengths into the skins deepest layers to energise our cells. Skin cells that are energised function better and can regenerate up to 200% faster which in turn leads to a more youthful healthy and radiant complexion. Each wavelength of light is absorbed by a different target to stimulate specific skin enhancing processes Our LED machine is perfect for post sun skin, acne, rejuvenation, pigmentation and redness. The articulated LED array enables treatment for the face, head and body.

Stellar Remodel by Salon C. Stellar

75 min - \$250

THE firming, cellulite-busting, body-sculpting, detoxing, deep-tissue, lymphatic drainage massage that means business. As well as improved blood circulation and better bowel function on the inside, the results of this on the outside are just glorious (you know, if you like looking beautifully contoured and all that). It's thanks to some vigorous lymphatic techniques that – bing-bong - may not replicate the typical send-you-to-sleep massage you're used to. But when there's work to be done on draining fluids and toxins, as well as the reshaping of body contours like the abdomen, waist and buttocks, who needs to feel zen eh? Targets localised fat and cellulite for remodelling and defining, improves circulation, reduces fluid retention, improves bowel function, boosts immune system and generally makes you feel brand new.
