

“ We wanted something modern and different: not a palace, but a place where architecture, art, and love meet. The Wintergarden is exactly that, and the sweetest finale was our night together in a room high above the city...”

Nina & Khalifa

*“I thought I was simply choosing a color. In the end,
it became an experience no one will ever forget.”*

CHAPTER *one*

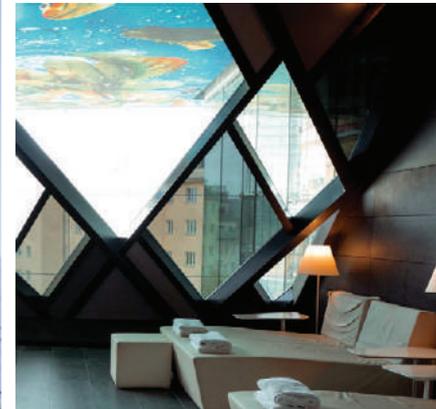

VENUE //

SO/

In the heart of Vienna, the 4th floor at SO/ reveals a hidden world of design and desire. Framed by floor-to-ceiling glass and crowned with Pipilotti Rist's luminous installation, the Wintergarden is more than a venue, it's an atmosphere. Around it, sleek modern spaces act as a blank canvas, ready to be transformed. With the St. Stephen's Cathedral in view and Jean Nouvel's architecture all around, events aren't staged, they're styled. This is where Vienna gathers to celebrate differently.

Menu

feast//

At SO/ Vienna, dining is an act of creation. Menus are not fixed but fluid, shaped around the occasion and the people at the table. Each course reflects the ingenuity of a team that thrives on individuality, transforming requests into culinary statements that balance elegance with bold imagination.

pairings //

Every celebration deserves its own flavor. Add Champagne towers, signature cocktails, floral styling, or live music, mix and match until the setting feels uniquely yours.

The finale belongs to pastry. Led by Annette Fauma, the pâtisserie works like a design studio, where sugar, texture, and form are molded into visions made real. From sculptural cakes to dreamlike desserts, no idea is too poetic, playful, or unconventional. Here, the sweet conclusion is always as striking as the celebration itself.

CHAPTER

theme//

A blank canvas invites bold imagination. The event spaces transform with ease, guided by creative partners who bring every vision to life. From a couture garden blooming with sculptural florals to an intergalactic cosmos lit in deep, otherworldly tones, each theme becomes an atmosphere of its own. Weddings, parties, or fashion moments, nothing here looks like the last, and that's exactly the point.

lights// projection///

Bright, dimmed, or bathed in color, the spaces shift with every vision. Art directors and lighting masters shape the atmosphere to match any theme. A blank canvas waiting for transformation, where dreamers set the tone and every detail becomes part of the story.

CHAPTER
four

flowers //

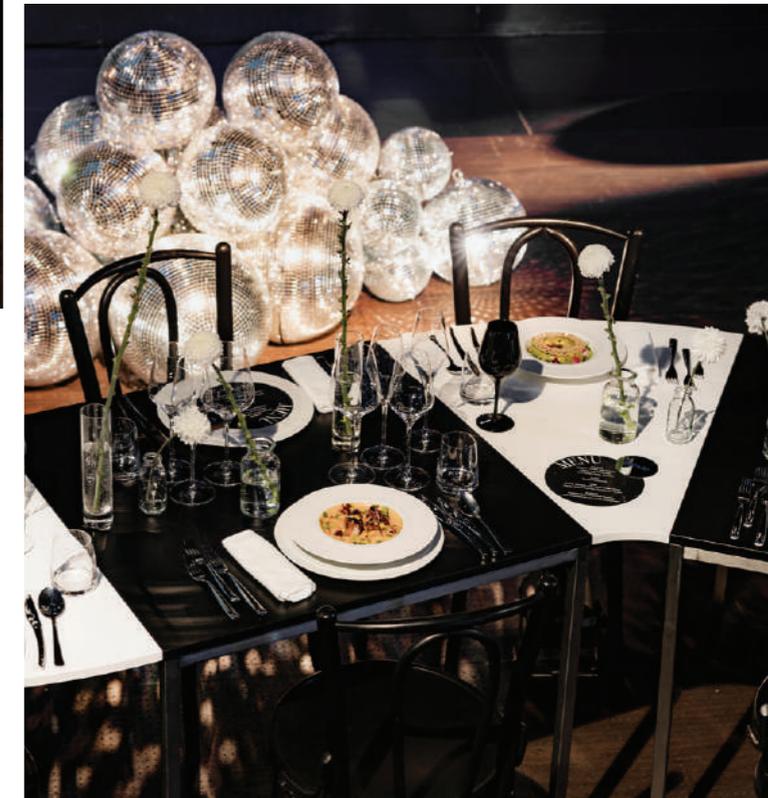

Floral design and tailored decoration set a pure, luminous stage of refined details, and a sense of effortless elegance.

furniture//

Furniture shapes the feeling.
At SO/ Vienna, each piece tells a story:
sleek, modern, and designed to
complement Jean Nouvel's architecture.
Our in-house selection provides
a refined foundation, while
curated collaborations with design
partners allow every event to find its own
expression. From sculptural statement
chairs to minimalist lounges,
furniture becomes part of the narrative;
adaptable, elevated and always in style.

stationery//

Paper becomes personality. Whether you design it yourself or work with one of our creative partners, stationery sets the tone, from the first invitation to the final thank-you. Minimalist, cosmic, or blooming with couture florals, every detail can be imagined and made real. Because style begins long before the party starts.

CHAPTER
five

Every celebration deserves to be captured in its best light. Our trusted photographers know how to translate atmosphere into emotion, architecture into backdrop, and fleeting moments into timeless keepsakes. Whether editorial, documentary, or cinematic in style, they turn your story into something you'll want to relive again and again.
